## **Pine Dale Mine Blast Monitoring Results**

	Park		Noon St.		Summer St.	
Date	Overpressure (dB)	Vibration (mm/sec)	Overpressure (dB)	Vibration (mm/sec)	Overpressure (dB)	Vibration (mm/sec)
21/01/2014		(11111111111111111111111111111111111111	87.3	0.08	106.4	0.08
4/02/2014			101.9	0.02	100.4	0.00
7/02/2014			91.8	0.07		

Legend:						
	No trigger					
text	Value greater than the EPL blasting requirement for 95% of					
	blasts					
	Limits are as follows:					
	•Airblast overpressure level of 115dB					
	•Ground vibration peak velocity of <b>5mm/sec</b>					
text	Value above EPL blasting limit for 100% of blasts					
	Limits are as follows:					
	•Airblast overpressure level of 120dB					
	•Ground Vibration preak velocity of 10mm/sec
