

# New electricity connection application

Commercial and Industrial

Use this form to apply for a new large CT electricity meter connection and electricity supply. Please email the completed form to [CTNewconnections@energyaustralia.com.au](mailto:CTNewconnections@energyaustralia.com.au). You can contact the Large Business customer care team on **1300 362 466** or at [businessenq@energyaustralia.com.au](mailto:businessenq@energyaustralia.com.au).

To begin a new connection process, you must have a signed electricity agreement with EnergyAustralia. Once your agreement has been validated and your account has been set up, the connection process will commence. Please note that this process can take up to 6 weeks. Any charges for the connection services and metering services will be passed through to you, in accordance with the terms of your electricity agreement.

**Please note:** This form does not replace a formal electrical work request. A separate electrical work request is still required.

## 1. Customer details

|   |                           |
|---|---------------------------|
| Company name                                | ABN/ACN                   |
| Primary contact name                        | Primary contact phone no. |
| EnergyAustralia account no. (if applicable) | Email                     |
