

Critical Information Summary Unlimited nbn™ Plans

INFORMATION ABOUT THE SERVICE

EnergyAustralia's Unlimited nbn plans deliver broadband internet connectivity via the nbn network to the Network Boundary Point of your premises. The Unlimited nbn plans are designed for residential customers and domestic users, and should not be used primarily for public, business or commercial use. The Unlimited nbn plan is invoiced on a monthly billing cycle.

Service Availability

The installation address for the service must be in an area serviced by the nbn Fibre Network. Availability of the service can be confirmed by contacting an EnergyAustralia Customer Service Representative on 1800 448 305.

Installation

Standard installation is included. Non-standard installations may incur additional costs. For more details on non-standard installation costs refer to the Standard Form of Agreement [here](#)

Equipment Required

You must have an nbn compatible modem for this service. EnergyAustralia offers a choice of two modems, as set out below. Each modem is Wi-Fi enabled and will allow connection to any wireless device in your home. The manufacturer's warranty period begins from the date of purchase and is as follows:

Hardware	Warranty Period
TP Link Archer VR500v	36 months
Netcomm NF18ACV	12 months

Minimum Contract Term

EnergyAustralia's Unlimited nbn plans are subject to a 12- month term. This is an agreement to supply the service to you at the address supplied by you in your application. If you relocate, EnergyAustralia may not be able to provide you with the same offer and you will incur cancellation charges.

INFORMATION ABOUT PRICING

There are two speed choices available for EnergyAustralia's Unlimited nbn plans. Prices for each plan are as follows:

Plan Speed (Mps)	Minimum Total Cost ¹ Month-Month	Minimum Total Cost ¹ 12-Month	Data Allowance
25/5 ²	\$65.95	\$791.40	Unlimited
100/40 ²	\$85.95	\$1031.40	Unlimited

¹These charges include a \$10/month discount that applies during the period that you also acquire an EnergyAustralia energy service. This discount does not apply if you no longer acquire an EnergyAustralia energy service so your monthly charge will increase by \$10 and the minimum 12-month cost will increase by \$120.

²Regardless of the nbn technology type connected at your address, the actual speed of your service will be slower than the maximum line speed. During peak evening periods of 7pm-10pm you can expect to have download speeds of 15 Mbps on the 25/5 service and 60 Mbps on the 100/40 service. Service speeds will vary due to a range of factors including congestion on the nbn network, especially during busy periods, type of modem, number of devices connected to the network, source of data, the technology connection to your home and your location. Further information on the speed of your service is available [here](#)

Other charges in relation to your broadband service are as follows:

Contract Length	Connection Fee for Standard Installations	Early Termination Charge	Modem (if acquired from Energy Australia)	Delivery
12 Month	Nil	\$120.00 (incl GST)	The TP-Link Archer VR500v RRP is \$125.00 (incl.GST) Netcomm NF 17ACV RRP is \$158.50 (incl. GST)	\$13.40 (Standard Australia Post)

Payments can only be made via direct debit from your credit card.
