

Critical Information Summary

Unlimited nbn™ Plans

DESCRIPTION ABOUT THIS SERVICE

EnergyAustralia's Unlimited nbn plans deliver broadband internet connectivity via the nbn network to the Network Boundary Point of your premises. The Unlimited nbn plans are designed for residential customers and domestic users, and should not be used primarily for public, business or commercial use. The Unlimited nbn plan is invoiced on a monthly billing cycle.

Plan Name	EnergyAustralia-Standard nbn™	EnergyAustralia-Standard Plus nbn™	EnergyAustralia-Premium nbn™
Minimum Monthly Charge **	\$55.95	\$65.95	\$85.95
Minimum Total Cost (12 Month term)**	\$671.40	\$791.40	\$1031.40
Data Allowance	Unlimited	Unlimited	Unlimited
Early Termination Fee	\$120	\$120	\$120
Minimum Contract Term	12 Months	12 Months	12 Months

** These charges include a \$10/month discount that applies during the period that you also acquire an EnergyAustralia energy service. This discount does not apply if you no longer acquire an EnergyAustralia energy service so your monthly charge will increase by \$10 and the minimum 12-month cost will increase by \$120.

Bundling: You don't have to bundle this service unless you wish to bundle Voice services with your NBN Service. You will receive a discount on your minimum monthly charge when you also acquire an EnergyAustralia energy service.

Service Availability

The installation address for the service must be in an area serviced by the nbn Fibre Network. Availability of the service can be confirmed by calling an EnergyAustralia Customer Service Representative on 1800 448 305.

Installation

New Development Fees: if you are in a new development that is not already connected to the nbn network, nbn co may charge \$300 to connect your premises to the nbn network. If applicable, we will bill that charge to you. Standard installation is included. Non-standard installations may incur additional costs. For more details on non-standard installation costs refer to our Pricing Schedule [here](#).

About Plan Speeds

Regardless of the nbn technology type connected at your address, the actual speed of your service will be slower than the maximum line speed. During peak evening periods of 7pm-11pm you can expect to have download speeds of 20.91 Mbps on the 25/5 service, 43.6Mbps on the 50/20 service and 80 Mbps on the 100/40 service. Service speeds will vary due to a range of factors including congestion on the nbn network, especially during busy periods, type of modem, number of devices connected to the network, source of data, the technology connection to your home and your location. Further information on the speed of your service is available [here](#)

Equipment Required

You must have an nbn™ compatible modem for this service.

EnergyAustralia offers a choice of nbn™ compatible modems, as set out below. Each modem is Wi-Fi enabled and will allow connection to Wi-Fi compatible devices in your home. The manufacturer's warranty period begins from the date of purchase and is as follows:

Hardware	Cost (Inc GST)	Delivery Fee (Inc GST)	Warranty Period
TP-Link VN020	\$79	\$13.40	36 months
TP-Link VR1600V	\$139	\$13.40	36 months

Important Conditions:

Payments can only be made via direct debit from your credit card.

Early Termination charges:

If you terminate your services within 12 months of activation, then you may be required to pay an early termination fee of **\$120** inc GST on your final bill. The minimum term and minimum monthly charge will commence upon NBN Service activation.

OTHER INFORMATION

Full Terms

This information is a summary only. Visit [here](#) for our Standard Form of Agreement which sets out the full terms and conditions on which we provide our products and services.

Usage Information

Customers can obtain information on their usage by visiting [here](#) or by contacting customer support on 1800 448 305.

Customer Support Contact Details

We are dedicated to excellence in servicing our customers. You can contact EnergyAustralia Customer Support for Support or Billing assistance via 1800 448 305.
