Share component 25000 MLs

Nominated work(s) 10CA117220

Tenure type Specific Purpose

Conditions

The water access licence with Reference No 10AL116411 is subject to the following conditions:

Plan conditions

Water sharing plan

Greater Metropolitan Region Unregulated River Water Sources 2011

Take of water

MW0603-00001

The total volume of water taken under this access licence in any water year must not exceed a volume equal to:

- A. the sum of water in the account from the available water determination for the current year, plus
- B. the net amount of water assigned to or from the account under a water allocation assignment, plus
- C. any water re-credited by the Minister to the account.

MW0604-00001

Water allocations remaining in the account for this access licence must not be carried over from one water year to the next water year.

MW0605-00001

Water must be taken in compliance with the conditions of the approval for the nominated work on this access licence through which water is to be taken.

MW5870-00001

Water must not be taken from the Coxs River in the Wywandy Management Zone of the Upper Nepean and Upstream Warragamba Water Source unless all available mine water from its storages has first been used.

MW5869-00001

The maximum volume of water taken in any water year must not exceed:

- A. 23,000 ML, or
- B. 25,000 ML, if the water available from the Fish River Water Supply Scheme is reduced by 30 % or more relative to the full entitlement.

MW5155-00002

- A. By 31 July each year, the licence holder must submit to Crown Lands and Water Division, Parramatta Office, a record of the volume of water taken under this water access licence for the previous water year.
- B. The record must be provided in an electronic format.
- C. The record must include volume of water taken for each month and in total for the previous water year.

Use of water

MA2455-00009

Water must be used for the purpose of power generation.

Monitoring and recording

MW2339-00001

A logbook must be kept, unless the work is metered and fitted with a data logger. The logbook must be produced for inspection when requested by the relevant licensor.

MW2338-00001

The completed logbook must be retained for five (5) years from the last date recorded in the logbook.

MW2337-00001

The following information must be recorded in the logbook for each period of time that water is taken:

- A. date, volume of water, start and end time when water was taken as well as the pump capacity per unit of time, and
- B. the access licence number under which the water is taken, and
- C. the approval number under which the water is taken, and
- D. the volume of water taken for domestic consumption and/or stock watering.

This condition ceases to apply to a work on the day that the recording and reporting requirements apply to that work under the Water Management (General) Regulation 2018.

Reporting

MW6037-00002

Once the water access licence holder becomes aware of a breach of any condition on this water access licence, the water access licence holder must notify the Minister as soon as practicable. The Minister must be notified by:

- A. email: nrar.enquiries@nrar.nsw.gov.au, or
- B. telephone: 1800 633 362. Any notification by telephone must also be confirmed in writing within seven (7) days of the telephone call.

Other conditions

No other conditions applicable

Glossary

available water determination - An Available water determination (AWD) is a water allocation which specifies the amount of water that can be taken during the water year. AWDs are made for each access licence category in each water source. AWDs are defined under the Water Management Act 2000, s. 59.

cease to take - Cease to take conditions means any condition on this approval, or on the access licence under which water is proposed to be taken, that prohibits the taking of water in a particular circumstance.

domestic consumption - Domestic consumption is the use of water for normal household purposes in domestic premises situated on the land.

licensor - WaterNSW or DPI Water, depending on which organisation administers your licences and/or approvals

logbook - A logbook is a document, electronic or hard copy, that records specific required information.

metered water supply work - A metered water supply work is a water supply work fitted with a data logger and a water meter that complies with Australian Standard AS 4747: Meters for non-urban water supply.

stock watering - Stock watering is the use of water for stock animals being raised on the land. It does not include the use of water for the raising of stock animals on an intensive commercial basis (kept in feedlots or buildings for all, or a substantial part, of the period during which the stock animals are being raised).

water allocation assignment - A water allocation assignment is where licence holders assign water allocations from one licence to another licence; the water allocation account of one licence is debited by a volume and the water allocation account of the receiving licence is credited by that volume.

water year - A water year starts on 1 July and ends on 30 June in the following year.

General Notes

All conditions on a water access licence require compliance. An appeal to the Land and Environment Court against a decision to impose certain conditions on an approval can be made within 28 days after the date the decision is made. Conditions identified with the first letter "D" are those that can be appealed during the appeal period.

Certain dealings and other matters relating to this water access licence or a holding in this water access licence must be registered in the Access Register in accordance with section 71A of the *Water Management Act 2000*. For information about the Access Register, contact Land and Property Information (<http://www.lpi.nsw.gov.au>).
